

The power of **natural** health
MoPro 30
Moringa Extract

30% Protein
Completely water soluble
24% Saponins & Glycosides

Moringa extract **MOPRO 30** is one of our most popular extracts. Our innovative MOPRO 30 is manufactured using our Proprietary Extraction Process and is unique because of its higher Saponins, Protein and Glycosides. It has 40% higher protein than any other Moringa extract in the market.

Our Innovative extraction is free from chemicals, acids or alkali. This is also Gluten-Free and has the optimum composition of water soluble amino acids, minerals which helps maintain body metabolism.

Moringa has been used as a traditional ingredient for a wide range of applications. The ayurvedic text indicated that the leaves of Moringa protect the liver, boosts immunity, fights toxic radicals and inflammation which makes Moringa a core ingredient for many applications including Sports Nutrition

MOPRO30 has a unique and optimum composition (Protein-30%,Saponins- Min 25%,Flavanoids-2.0%,Glycosides-Min 25%,Tannins)

Extract Benefits:

- Water soluble bio minerals improves many body functions like boosting immune system, improving bone health, and increasing body metabolisms
- HC30P Moringa also improves enzyme activators & has a good osmotic balance.
- Improves digestion and releases quick energy
- Promotes weight loss and helps in increasing good cholesterol
- Enhances athletic & physical performance
